Project Roots AZ

About Us: Project Roots AZ is a nonprofit organization committed to cultivating a healthier, more sustainable community. Through our urban farming initiatives, educational programs, and community support services, we strive to provide access to nutritious food and promote sustainable agriculture practices.

Our Mission: Our mission is to empower communities by growing food, feeding families, and teaching the importance of sustainability. We believe that everyone deserves access to fresh, healthy food and the knowledge to make informed choices about their diet and lifestyle.

Our Programs: - Urban Farming: We operate community gardens and backyard farms, where we grow a variety of fruits and vegetables using sustainable methods. Our goal is to expand to a commercial farm with tower farms, increasing our capacity to serve the community. - Education: We offer workshops and educational programs on gardening, nutrition, and sustainability. Our aim is to equip individuals with the skills and knowledge needed to grow their own food and make healthier choices. - Food Distribution: We provide fresh produce to families in need through our food distribution network. By partnering with local organizations, we ensure that nutritious food reaches those who need it most.

Get Involved: There are many ways to support Project Roots AZ. Whether through volunteering, donating, or becoming a sponsor, your involvement helps us make a positive impact on our community. Join us in our mission to create a healthier, more sustainable future.

Contact Us: To learn more about Project Roots AZ and how you can get involved, visit our website at www.projectrootsaz.org or contact us at hello@projectrootsaz.org.

Street, AZ Phoenix, AZ 85004
